## Monday, St. Valentine's Day

The day devoted to the dear old Saint of the Heart when messages of affection fly all over the world to near and distant friends. Send Valentines and send plenty of them, send to those who expect, and, most of all, send them to those who don't expect them.

The older folks enjoy a Valentine even more than the younger ones. Whatever you do don't forget the mothers, aunts, the uncles and grandfathers. We have got something for them all, and, of course, plenty of the real honest-to-goodness Valentines. There are quite a number of the old-fashioned comic ones and plenty of postcards.

## DR. MACALLUM GAVE ADDRESS TO CHEMISTS

Hearty Applause Given To Speaker For Address.

### MUCH DISCUSSION.

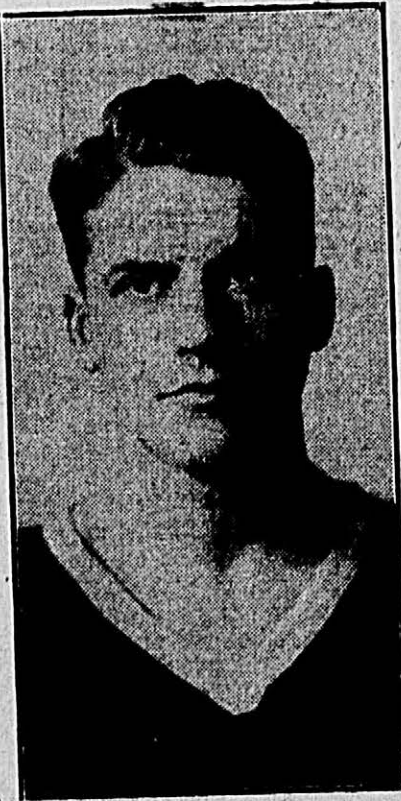

## The Living Animal Cell As an Inorganic Chemical Laboratory.

Yesterday afternoon Dr. A. B. Macallum addressed the Chemical Society on the subject: "The Living Animal Cell as an Inorganic Chemical Laboratory." The speaker dealt with the mechanism responsible for the production of hydrochloric acid in the stomach and the elimination of acid by means of the kidneys.

The method employed is to inject into the blood of a living animal certain suitable reagents chosen to give precipitates in the tissues which shall register the presence of the inorganic constituents of those cells. By this means chlorides and phosphates may be fixed either together or separately. The animal is killed and sections of the cells to be investigated at once made. Micro-photographs are taken and these reveal the exact location within the cells of the inorganic constituents under investigation. Thus it has been found that the pericellular cells within the stomach produce free hydrochloric acid by the introduction of sodium chloride and sodium dihydrogen phosphate. When these cells are at rest, they become charged with phosphate; the chloride outside the cells enters under the necessary stimulus, and then the above reaction takes place.

## ROOTERS' SCHEDULE

### FOR THIS AFTERNOON

The Rooters' Club will turn out at the Highlanders' Armory for the basketball game with Queens at 3.15 o'clock this afternoon. Arrangements will be made to put all of the rooters together inside of the building so that the yells may be given to the best of their ability. The tickets for the game may be obtained for fifty cents at the Porter's desk in the Union this morning.

### FOR TO-NIGHT

Arrangements for the seating of the Rooters at to-night's big game in Mount Royal Arena are as follows:

All men will assemble at the corner of Park and Mount Royal Avenues at 7.30, making sure to be there by that time. At 7.30 they will proceed in a body to the Arena where special arrangements have been made to sell them tickets expeditiously. They will obtain tickets and the East end of the rink has been reserved for them until 7.45. This means that to get the best seats and be all together they have to be in their places by 7.45 in the rink. After this time the gates will be opened to anyone and to make sure the Rooters get the best seats and be able to keep together, all must be in their seats by 7.45. The price of the seats will be 50 cents and as this end is the best place from which to view the game, as there are no post to obstruct the view, the arrangement is considered to be the best possible.

Every available man is expected out as the whole support of the college is necessary to help the team out in this hard struggle.

Again—Leave corner Mount Royal and Park Avenues at 7.30 sharp and go into rink from Clarke Street entrance.

Be on time and bring the gang with you.

## INFORMAL AT UNION USUAL BIG SUCCESS

Popular Function Enjoyed By Large Crowd.

### FITTING DECORATIONS.

Nearly 300 Danced To Music Rendered by LeBaron's Orchestra.

One more of those perfectly delightful social functions which are held in the Union from time to time during the year passed into history last evening. Reference is made to the Informal Dance which was held in the Union last night. About one hundred and fifty happy couples took advantage of the affair and spent the evening joyfully tripping the light fantastic. As usual, it was an unmitigated success.

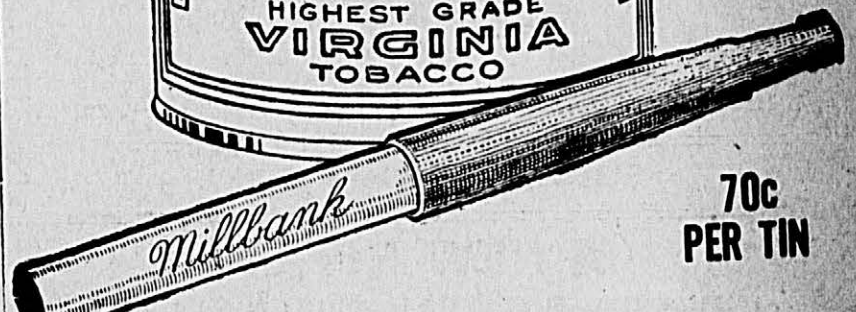

The Union was fittingly decorated for the occasion, and all the conveniences which are to be found there came in to full advantage. An especially popular part of the arrangements seems, for an easily imagined reason, to be most popular; this is the plentiful supply of cosy sitting-out places. The orchestra rendered perfect music and added much to the pleasure of the dance, and took away somewhat of the pain of stepped-over toes. Finally, we must mention of the splendid refreshments which were most heartily partaken of by all present.

The function had the honor of the presence of Miss Hurlbutt, Prof. and Mrs. H. M. Lamb, and Mr. and Mrs. M. O'Halloran, who acted as patrons and patronesses.

Among those present were: the Misses G. Newmark, Willis, Cooper, (Continued on Page 3.)

## A NEW RIVAL

A recent announcement in the local press to the effect that the University of Montreal will shortly lay before the Inter-Collegiate Union a request for admittance as an active member of that body, has been received with the greatest interest. Such a step would mark a distinct advance in the history of Canadian inter-collegiate sport and could not fail to bring about closer co-operation between the French and English speaking students in this city and throughout the province.

Hockey and football are the two major sports mentioned in which our sister university will endeavor to obtain the supremacy over McGill, Queens and Varsity. Of the former we have already occasion to know that the University of Montreal, under her former title of Laval, is a worthy opponent. As regards football, although the sport is one not universally popular with French-Canadian youth, there have been in the past many stars of the gridiron whose names at least had a distinctly Gallic flavor. Other sports would also doubtless be undertaken by the University of Montreal and this could not fail to stimulate interest in the City and beyond.

In the larger aspect, the proposed admission of the University of Montreal would undoubtedly lead to the happiest results. The friendly rivalry of the rink and gridiron would certainly mature into something more lasting, and in time no doubt we would have inter-college debates and social affairs. The friendly feeling thus promulgated and the mutual understanding so encouraged would be important not only from an academic, but even from a national standpoint. Representing as they do the future leaders of their respective races, the "bonne entente" thus encouraged in the campus, would almost certainly bear fruit in the forum. By all means let us have a closer relationship with our sister-university, and if the admission of the University of Montreal into inter-collegiate athletics is to be the forerunner of that consummation so devoutly to be wished, we sincerely trust that her application will receive the most favorable consideration.

## COSMOPOLITANS GAVE LECTURE

### Sectional Club Introduces Innovation.

Last night at the Hall, Mr. Di Florio entertained a large audience, under the auspices of the Cosmopolitan Club, by an illustrated lecture on Italy.

Mr. Di Florio treated his subject with skill, and in addition to speaking of the historic figures of Italy, he related of the artistic and other qualities of the Italian people.

Many anecdotes with regard to the historic figures of the past were related, which lent to the lecture very much color.

The club was much gratified with the attendance, and hoped that at the next lecture the large hall of the "Y" could be necessary in order to hold the audience.

The next lecture will be given shortly by Mr. Amirhanian on Armenia.

It would be of interest to many students at McGill to know that there are 17 different countries represented at McGill. The countries represented are:

Armenia, Belgium, China, Demara, Greece, Grenada, Japan, Italy, Malacca, Mexico, Montenegro, Peru, Rumania, Sweden, Switzerland, Trinidad and South Africa, totalling all 58 students from points outside Canada, not including Britain and the United States.

The students at McGill will see that

## R. V. C. NOTES

### R. V. C. JUNIORS.

Will all those who have not yet secured biography forms for the Junior Year Book please do so at once? They may be obtained at Miss Trenholme's office. Only three days are left, as all forms must be handed in not later than Monday, Feb. 14th. All not received by that date are in danger of being omitted. Also, will all artists please have their drawings ready as soon as possible? A list of Societies for which drawings are required will be posted.

### HOCKEY.

R. V. C. will play the School of Physical Education Saturday at 11.30 a.m. on the Rink in the Hollow. This promises to be an exciting game, and the R. V. C. girls are urged to come out and support their team. All up, rooters!

### ATHLETIC ASSOCIATION.

There will be an important meeting of the R. V. C. Athletic Association at 1 o'clock on Monday, Feb. 14th, in the Common Room.

A meeting of R. V. C. '22 was held on Thursday. Miss Sharples and Miss Shatford were elected to debate against the Seniors on Wednesday, the 16th. Miss Birkett asked the girls to hand in their biographies to her as soon as possible. The meeting then adjourned.

A series of lectures on these different countries will be comprehensive and very instructive.

The person to whom our sympathy went out most greatly in the melee, or more strictly speaking, after the melee, last Saturday evening, was the unpaired sportsman who occupied the enemy's citadel while their pugnacious goaler was breathing the purer air of the penalty box. To our mind it would have spoiled the whole picture had any goals been made during his tenancy of the tapestry-hung cage. His gameness and his alertness excited our warmest admiration.

# QUEEN'S MEN OPPOSE MCGILL THIS EVENING

McGill Will Have to Travel  
at Top Speed.

## ROOTERS OUT!

Queens Will Put Strong  
Team on Ice.

To-night at 8.15 the Red and White sextette will do battle with the cohorts from the Limestone City. After their defeat last Saturday, the McGill squad are sure to be upon their mettle, and with any kind of luck they ought to be able to secure the much-needed victory.

Queen's are reported to have a strong team this year, and although beaten 7-1 in their initial clash with Varsity, they are notoriously game fighters, and are sure to put up the liveliest kind of argument.

The McGill team will be at full strength, and if they maintain the fast pace they have been setting at recent practices, they ought to be able to get the decision. They will have to fight from start to finish, however, and play the best brand of hockey of which they are capable. Their game against Westmount last Monday showed that they can play consistently and well, but in to-night's encounter they will meet with much stiffer opposition. If they can get settled down to their combination plays, their chances of making good are excellent, but they have not so far this season shown the hockey that they should show. To-night, however, affords them an excellent chance of breaking into the winning column in the Intercollegiate series, and it is to be hoped that they will take full advantage of it.

It is to be hoped that as many rooters as possible will be in attendance to cheer the team on. Their encouragement is of the greatest possible assistance, and is much needed. So every man who can possibly do so, turn out to-night and second the efforts of the team in their bid for success.

The line-up will be as follows:  
Timmins, Stenson—Goal.  
Cully and Dineen—Defence.  
Anderson, Gaffney, Flanagan, Lyall and Behan—Forwards.

# PLAYERS' CLUB WILL SHORTLY PRODUCE PLAY

Decision Reached at Important  
Meeting Yesterday.

## MORE DETAILS LATER.

R. V. C. Held Meeting at  
Which Lady Members of  
Executive Were Elected.

The executive of the recently organized Players' Club held a conference yesterday afternoon with the Senior Play Committee. It was decided that a play should be produced, but details will not be available for announcement for a few days. The executive of the Players' Club has ever since its election been busy drawing up a constitution, and this is now ready. A general meeting of the club will be called early next week to ratify the constitution, also the agreement with the Senior Play Committee. The Players' Club fills a long-felt want at McGill for the proper expression of the Drama. It was organized two weeks ago at a meeting held in Room 7 of the Arts Building. Officers were elected, and it was unanimously decided to admit the R.V.C., allowing them full privileges of membership. As a result of this, a special meeting of the R.V.C. was held in the Arts Building on Thursday afternoon at five o'clock, and the R.V.C. members of the executive were elected. Miss Hackett was elected vice-president of the club, and Miss James, secretary. The committee consists of Miss Gregg, Miss Fry, Miss Freedman, Miss Cox and Miss Barnes.

The object of the Players' Club is two-fold. It aims to promote the discussion of literary subjects of general interest, and it will attempt to produce about two plays a year. It also intends to take a prominent part in the pageant which will be put on next fall in connection with McGill's Centennial Celebration.

It is needless to expound on the benefits that members will derive from these activities, and as membership is open to all undergraduates, it is hoped that a large number will avail themselves of the opportunity to join up. It is especially recommended to students of English Literature, and particularly to those who are making a special study of the Drama, as they will find it a material assistance in the better understanding of their studies.

Mr. Noad, of the Department of English, president of the club, has already shown that he is the man most suited for the position. In the short space of two weeks since his election he has already achieved results which are really creditable.

Dr. Cyrus Macmillan, of the Department of English, is giving much of his time in the interests of the club. He is the honorary president, and it is chiefly due to his influence that the Players' Club was organized. He is lending it his unqualified support and gives much valuable advice. Further particulars in connection with the play which will be shortly produced will be announced in an early edition of the "Daily."

The McGill Ski Club are also planning to enter a team in the coming Canadian Championships that are to be held in Montreal on the 19th of this month. We have several very good jumpers at college, and these men ought to make a very creditable showing in these events, as they are all familiar with the Montreal jumps. The following week the McGill Carnival will be held and several American colleges will participate in this. This will be the second annual Carnival of the McGill Ski Club. Providing the weather is favorable, everything else points to this being a most successful affair.

## THE DANCING AT CRO'S.

To the Senior Undergraduates at McGill, the management of Cro's extend the privileges of the Club for Saturday afternoon. These teas are held every Saturday afternoon at 4.30 in the Club rooms at 188 Peel street. Music for dancing will be rendered by the Cro's Trio.

Undergraduates wishing to enjoy these privileges will kindly telephone their reservations to Cro's at Uptown 8975.—Adv't.

# McG.SWIMMERS MEET VARSITY NEXT FRIDAY

Keen Competition To Be  
Expected.

## VARIETY OF EVENTS.

Inter-Collegiate Polo Match  
Will Be Held Following  
Day.

The Intercollegiate swimming meet will take place on the Friday of next week. It will be held in Toronto this year, and the events will be carried out in the Hart House plunge. The Interfaculty competition kept the Varsity swimmers in good condition during the past three or four months. The McGill men under the competent instructions of Mr. Vernot promise to give a good account of themselves when these two teams meet. Both teams have many good men, amongst whom Geo. Vernot, the Olympic champion, who is with McGill this year. George is a speed swimmer and will certainly show his capacities in the speed trials. The Varsity team, however, are not lacking in champions, for they have with them men who hold the Dominion championships, and several intercollegiate champions. Scott has been doing considerable practicing, and it is expected that he will be in some of the diving competitions. Binns who is noted for his speed in the breast stroke will also be amongst the McGill competitors.

The events will be as follows:  
50 Yards free style (speed).  
50 Yards back stroke.  
50 Yards breast stroke.  
100 Yards free style (speed).  
Long plunge.  
200 Yards free style (speed).  
Style diving.  
Relay race.

The first Inter-collegiate polo match will be held in Toronto on the 19th. This meet will take place at 2.30 in the afternoon and the champions of last year will certainly do their utmost to bring the championship to McGill for another year. The return polo match will be held here in Montreal on March.

# DR. MACALLUM GAVE ADDRESS TO CHEMISTS

(Continued from Page 1.)

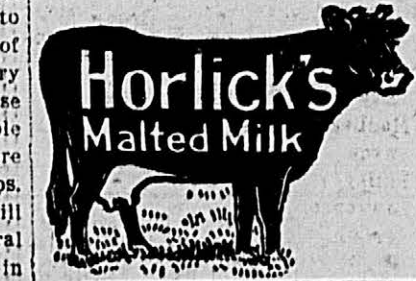

The speaker pointed out the various forces tending to bring about this reaction, and emphasized every point by a large number of clear and well-prepared slides. The work carried on by Dr. Macallum and collaborators marks a distinct advance in the knowledge of the mechanism of the animal cell, the results obtained being not only splendidly qualitative but also quantitative.

This work is quite recent and will be published in the course of a few months. After considerable discussion, Dr. Macallum was accorded hearty applause, and adjournment took place.

# JUNIOR CHAMPION- SHIP IN PROSPECT

McGill Juniors Showing Up  
Well in League Race.

To-day at 4.30 p.m., the Juniors meet the Nationals at the Mount Royal Arena. This is their next to last scheduled league fixture, the final league contest coming off on February 19th, when they are up against the Victoria Juniors.

On the showing made to date by both teams, McGill should be an easy victor this afternoon. The Nationals have thus far collected not a point, while the Red and White have tied three and won one of their contests, this record, with a win to-day practically assures them of a place in the semi-finals, which follow immediately after the completion of the schedule.

Quebec will journey here to play off against the winners of the Junior Championship in Montreal, and decide who will make the trip to Toronto to battle against the Ontario Championships.

This afternoon the McGill protest against a Catholic High player will be considered, and, if granted, will place our men even higher in the league standing.

The following will constitute the McGill line-up:

Lynch  
Johnson  
Emo  
Price  
McNaughton  
McGibbo  
Moran  
Mitchell  
Layhew.

## TO-DAY'S THE DAY.

# SIR ARTHUR PRESIDENT OF AERIAL LEAGUE

Annual Meeting Held at the Ritz.

## NOTABLE EVENT.

Five McGill Men Elected to the Executive.

Quite a large audience attended the fourth annual meeting of the Aerial League of the British Empire at the Ritz-Carlton Hotel last night. Prior to the election of officers for 1921, Dr. J. Bonsall Porter occupied the chair. The outstanding point of the secretary's report was the formation of the Canadian Air Force last year. This force came into being almost without notice in the fall of last year, and is at present recruited from the ranks of the many ex-officers of the Royal Air Force resident in Canada.

It is of a militia, and not a permanent character, in that the members of the force, while joining for a stated term of four years, are only called upon for service periodically, and almost its entire administrative personnel is non-professional. The regulations concerning the force are most comprehensive and exhaustive, and should the present plans be adhered to, Canada will eventually have available for a national emergency a "Flying Corps" complete in all essential details of war—ground, supply, communication and medical units. The name of the league was then changed to that of "The Aerial League—Montreal."

After the conclusion and adoption of the annual reports, the following election of officers took place:

Patron, His Excellency the Duke of Devonshire; Honorary Presidents, Rt. Hon. Arthur Meighen, Rt. Hon. Lord Shaughnessy, Hon. Sir Charles P. Davidson and Sir Herbert S. Holt; President, Sir Arthur Currie. The Vice-Presidents include Dr. J. Bonsall Porter, Macdonald Professor of Mining Engineering. Included on the executive committee are: W. M. Birks, a Governor of McGill; Major C. M. McKergow, Associate Professor of Mechanical Engineering; and L. B. Rochester, Science '21. Thus there are five men actively connected with McGill on the executive.

The election of Sir Arthur Currie as President was very favorably received, and he took the chair amid loud applause. In a few well-chosen words, Sir Arthur thanked the League for electing him President, and wished it every success in all its undertakings. He spoke in glowing terms of the work done by Canadian airmen in the war, and hoped that the Canadian Air Force, now in its infancy, would achieve great results, and prove a national emergency in time of need.

The Principal made a plea for support of research work in the Universities. The research departments have not all the facilities they need. The importance of these departments cannot be too strongly emphasized, as it is through them that great theories are actually put into practice, such as flying.

Air-Commodore A. K. Tylee, O.B.E., then gave a most interesting address on the "Canadian Air Force," many of the points of which were included in the secretary's report. Air-Commodore Tylee said that with proper instructors and careful flying, aviation is as safe as walking down Sherbrooke street! He revealed facts heretofore unknown to most people when he told of the progress of Camp Borden, which is now a real community of six hundred people, with most of the facilities of a town. The Canadian Air Force has done excellent work since it has been formed and its future depends on the Canadian government. He said if Canada is to be protected at all, it must be from the air. This cannot be done by mere military, but by commercial enterprise. In conclusion he said that 56 per cent of the R.A.F. were Canadians, and they are willing to help make a great Canadian Air Force if only support is given. A series of very instructive animated cartoons and motion pictures on aviation followed the address.

Owing to the lateness of the hour the two last addresses had to be somewhat curtailed. This was regretted as the themes of each were equally as important as that of the first address. Lt.-Col. Robert Leckie, D.S.O., gave a talk on "Aviation Operations in Canada," with emphasis on the Trans-Canada flight.

A notable point of his speech was the fact that there are already Air Laws in the statute books of Canada, while the United States have none as yet. A striking example of the speed of aerial transport was given. The ordinary time from Peace River to Port Norman is six weeks, while an aeroplane does it in one day.

The story of the flight from Halifax to Winnipeg was a stirring one. Overcoming great difficulties, Col. Leckie and his companion completed the first leg of the great flight, which was completed by Air-Commodore Tylee. The actual flying time from Halifax to Vancouver was only forty

## NEW TEAM IN HOCKEY LEAGUE

University of Montreal Desirous of Competing in Intercollegiate Hockey.

McGill students will hear with the friendliest of feelings the desire expressed by our French fellow students to join the Inter-collegiate Hockey League. The University of Montreal, formerly Laval, has received a new charter and is no longer under the jurisdiction of the University of Quebec. A sport committee recently formed has drawn up extensive plans for the sporting world of the college for next season.

The material possessed by the French University is of the highest calibre. With this team in the league, Inter-collegiate hockey will become even more interesting than it has been in the past. More games will be staged in Montreal and our city will be represented by two teams who will surely keep the hockey honors safely enshrined in the "Concordia Salus."

It will surely be a boon to athletics to have the University of Montreal team in the league and we extend them our best wishes and assure them of our sincere and unflinching support in their endeavor to enter the league.

## PROPER PLACE FOR LADIES.

Ladies always like to attend a Basketball game. Take her to the game between McGill and Queen's in the Highlanders' Armoury to-day at 3.15 o'clock.

## THIS AFTERNOON.

This afternoon the Basketball team will have to win if they hope to remain in the running in the Inter-collegiate League. The attendance of every student is needed at the game to help the team on. Tickets can be obtained at the Union.

hours, and the Colonel hoped that soon the whole fight could be made from coast to coast in thirty hours. The closing address by Mr. Ellwood Wilson, Manager, Forestry Division, Laurentide Co., on "Forestry Conservation and Patrol Work," was exceedingly practical as well as interesting. Mr. Wilson explained with the use of some very fine moving pictures, the use of the aeroplane in fire detection and protection, timber cruising, and forest operations generally. The vote of thanks was given by Dr. Porter and seconded by Sir Arthur. The National Anthem concluded the meeting.

## McGILL PLAYS A VITAL GAME IN AFTERNOON

Basketball Team Meet Strong Queen's Aggregation.

## MUST WIN TO-DAY.

Special Arrangements Made For Ladies Attending the Contest This Afternoon.

The Basketball team is out to show what they are really capable of doing this afternoon. If the men are going at their regular speed they should have little trouble in defeating the Queen's team. The game starts at 3.15 o'clock sharp in the Highlanders' Armoury, and the spectators are all asked to be in their seats before that time in order to avoid inconvenience.

Hay, McGill's rangy centre, got up out of bed yesterday for the first time this week, and will be at his regular position in all probability. It is expected that Rene Perrault will be in uniform, and he may be called upon to step in to the game if Hay cannot play. The victory of the team over M.A.A.A. last Wednesday showed that the team was returning to form, and they have rested up since that time in order to be in the best of shape for the game to-day.

The Queen's team arrived in town last night, and are confident that they can turn the trick that will put McGill out of the running in the Basketball League. McGill has already defeated Queen's in the gymnasium of the latter club, and they think that they can repeat the trick if they can show any of the teamplay for which they were lauded a few weeks ago. The complete breakdown of the quintette last week is something that happens to every team at one time or another. That it should have occurred during such an important game is unfortunate, but it will only make the men play all the harder.

The players on the team have not lost confidence in themselves, and predict that they will show better things against the 'Varsity team in Toronto. If they are to be able to give 'Varsity a run for the championship, it is absolutely necessary that they should win this afternoon. The full-hearted support of every student is needed if the team is to carry off a victory to-day, and every student should consider it a duty to attend the game, even if he were not to see a good basketball game.

Every one who can possibly do so is asked to get their tickets at the Union in order to avoid overcrowding at the door of the Armoury.

A crowd even bigger than that of last Saturday is expected at the game so that the spectators would do well to arrive at the hall as early as possible. It is expected that special seats will be reserved for the ladies, in order to save them any inconvenience. The hall is at 429, Bleury Street, just below Sherbrooke Street. It should be packed by students who are out to show that the right spirit is present at McGill.

## ROYAL VICTORIA COLLEGE STUDENTS TO HAVE PRIVILEGES OF CIRO'S AT "THE DANSANTS."

The Committee of Ciro's are extending the privileges of Ciro's to the Senior Undergraduates of the R.V.C. on Saturday afternoons for the "The Dansant" held weekly by the Club.

This privilege is extended to the R.V.C. and McGill exclusively, and it is therefore asked that undergraduates will have their registration cards with them for presentation if requested.

The "The Dansants" is from 4 to 6.30 p.m., and the music for dancing is rendered by the popular "Ciro's Trio."

Amidst refined surroundings you will be able to spend a most enjoyable afternoon.

Reservations may be made by telephoning "Ciro's," Up. 8975, 186 Peel Street.—Advt.

## GIVE UP THE TEA.

Give up the tea this afternoon and take her to the Basketball game in the Highlanders' Armoury, between McGill and Queen's, at 3.15 o'clock. She will appreciate it.

## 3,000 STUDENTS.

Three thousand students cannot be accommodated in the Highlanders' Armoury, but as many as possible will be accommodated for the game this afternoon. Be among those to get a seat—some will have to stand.

## A RECORD ATTENDANCE.

A record attendance for a Basketball game was created at the game in the Highlanders' Armoury last Saturday. McGill students are out to make that crowd look small at the game in the same place this afternoon.
